

```
1 Node *createNode(int value) {  
2     Node *newNode = (Node *)malloc(sizeof(Node));  
3  
4     if (newNode != NULL) {  
5         newNode->data = value;  
6         newNode->next = NULL;  
7     }  
8  
9     return newNode;  
10 }
```

newNode
